AED PROGRAM – Doug K (District Safety Committee Minutes 5/19/2011)

Motion to create a sub-committee to refine the proposal to create a lease program that phases in with District Police first, and then phases in additional users or departments via an application process. Recognizing that KAD and Student Health Services may be the first to take advantage of the application process. Sub-committee to forward to administration upon completion of the updated proposal.

Discussion: Xuan Ho asked who would be on the sub-committee. Doug K said that EHS will research and contact members of the former committee to see if they are interested, and will email proposed sub-committee to all Safety Committee members asking for additional volunteers.
