

Faculty Equivalency Minutes

3/15/2019

Present:

April Chapman, Nicole Frantz, Mike Henry, Sarah Whyllly, Robin Fautley

Absent:

Shelly Kaldunski

Guest:

Eric Thompson

Adoption of Minutes:

Minutes of the previous meeting passed (5-0).

Cases:

- 1) Adaptive PE case needs to be better documented. The candidate needs to show how their education is equivalent to a Bachelor's in one of the listed topics, such as KAD. The Department Chair needs to outline the specific training the candidate possesses that meets minimum quals.
- 2) The Social Media request in wine studies is not appropriate for the committee to review. The applicant already is teaching Social Media through CSI. There is no way to grant equivalency for this candidate in agriculture as the minimum qualifications are completely different. If the department wishes to offer a class in Social Media with an emphasis on wine studies, then they should work with the CSI department to cross-list the course.

Discussion of Items

- The committee discussed with Eric Thompson (Senate President) which version of Procedure 4.3.2bP will be shopped to constituent groups. It was agreed that revised version from our last meeting made the most sense and once all corrections have been made we can send the document back to the Senate (the originating body).
- The committee reviewed the pathways to equivalency document and the equivalency guidelines. The only piece that still needs to be completed is the example of professional experience in lieu of a degree. Mike Henry will continue to work on that. Before our next meeting Sarah Whyllly will plug the options into the application guidance tree.
